

BWI Marshall Airport Summer Youth Initiative

July 14-18, 2025

- ✦ One Week. 50 Students.
- ✦ An introduction to fascinating workplaces and careers.
- ✦ A world of possibilities.

BWI Marshall Airport Summer Youth Initiative

July 14-18, 2025

✦ Discover the Possibilities! ✦

The **Maryland Department of Transportation's Maryland Aviation Administration**, along with industry partners, will take 50 students from Baltimore City inside of one of the most fascinating workplaces in the world for one week. They will be immersed in the exciting work environment at **BWI Marshall Airport**, including daily flight operations, security, transportation, and many businesses in the airport community. This unique opportunity will expose the kids to the wide range of jobs and careers available in one of Maryland's largest employment centers.

The program includes going onto the airfield, observing air operations from the flight tower, visiting BWI Airport's Fire & Rescue Department, learning about the Transportation Security Administration and Customs & Border Protection, canine demonstrations, airport security training facilities, climbing into snow removal equipment, and interaction with the people who work in a variety of interesting jobs. Each day includes inspirational speakers from diverse backgrounds who talk about the importance of education, hard work, commitment, and the personal discipline required to achieve career goals. This is a life-changing experience for our youth. Please help our students discover their possibilities!

BWI Marshall Airport Summer Youth Initiative

July 14-18, 2025

"Life's most persistent and urgent question is,
'What are you doing for others?'"
– *Martin Luther King Jr.*

Please join us in providing Baltimore City students with a unique up-close and personal experience, exploring potential career opportunities in the world of transportation, aviation, construction, engineering, and more!
